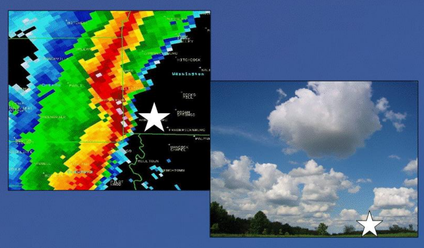
StormReady® Supporters

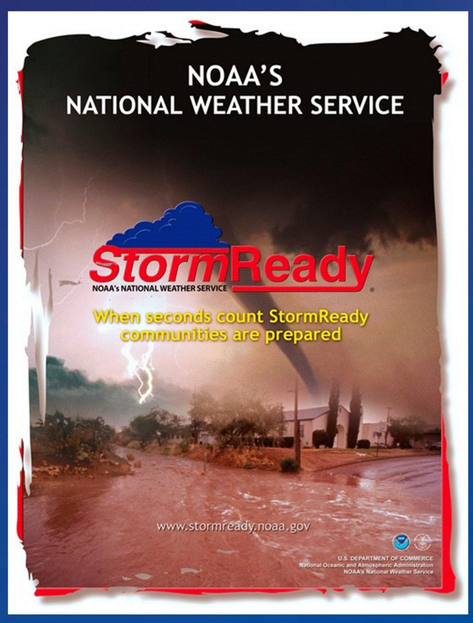


If ★ is your school, business or venue:

What weather hazard is imminent?

How do you react?

What do you do after the storm?



Schools, Businesses, Hospitals, Venues!
Let us help you become better prepared when severe weather threatens!

www.stormready.noaa.gov

Partner with your NWS office and become a StormReady® Supporter.

The Nassau County Florida Public School District became the first StormReady® Supporter School District in the County in 2009!

Program Goals:

- Enhance weather awareness throughout your infrastructure.
- Refine weather safety protocols
- Schools, businesses, hospitals, and event venues!

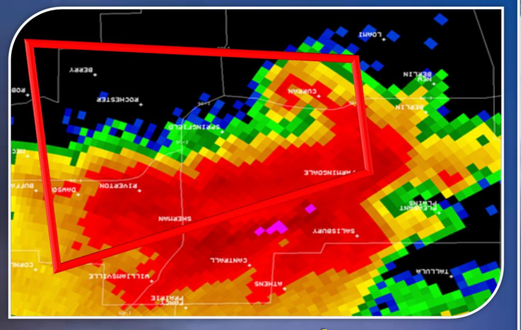
Process:

- Contact your NWS office (weather.gov).
- Work with the NWS to satisfy weather preparedness, safety and response guidelines tailored for your organization.
- Once all guidelines are satisfied, the NWS will award you a StormReady® Supporter sign so you can continue to broadcast and promote weather readiness.

NWS Skywarn® Storm Spotters

- Serve your community
- Join the NWS Warning Team
- Your Report Could Save Lives!

"This is storm spotter John Smith in Glynn County. I am on the causeway between Brunswick and Jekyll Island. I see a tornado to my north over the marsh. It is moving east toward Jekyll Island."



TORNADO WARNING:
The NWS Jacksonville has issued a tornado warning for northeast Glynn county. At 2 pm, a NWS storm spotter confirmed a tornado moving east from Brunswick toward Jekyll Island. People in the path of the tornado need to seek shelter immediately!
